

PLANIT

Strategic + Transport Town Planning

Professional Profile

Mohamed Ashik

Mohamed is interested in people focused urban planning that enhances the quality of life in the public realm, urban life, sustainable planning, and community development.

Mohamed is a town planner with a Masters' Degree from the University of Canberra and a bachelor's degree in civil engineering. Mohamed has been working for PLANIT for the past two years on various development applications and planning advice.

Mohamed has enjoyed travelling while studying and experiencing the approach to urban planning in three very different contexts (India, Japan and Australia).
